## About Dyna-Lite

Dyna-Lite has been supplying dependable lighting equipment to the photography industry for almost 30 years -- designed and manufactured in the United States.

There have been many changes in the photographic industry. Computers and digital images are making a great impact on us these days, but there is still one element that stays the same, the necessity for good lighting. So, no matter what method you use to capture your image, Dyna-Lite will continue to strive to make electronic flash gear that will aid in the creative process of producing the dynamic images that are in demand by today's sophisticated photo buyers. And with Dyna-Lite's ready to go Package Systems, you have everything you need to produce professional level lighting without fear or trepidation

And now, **Dyna-Lite** is proud to announce its **Educational Purchase Program (E.P.P.)**. We want to make available to students and instructors of photographic studies, discounted prices for our quality, lightweight, and dependable electronic flash equipment.

We at Dyna-Lite, wish you success in this challenging, yet rewarding industry. And remember -- Education is knowledge through enlightenment!

### The Dyna-Lite System

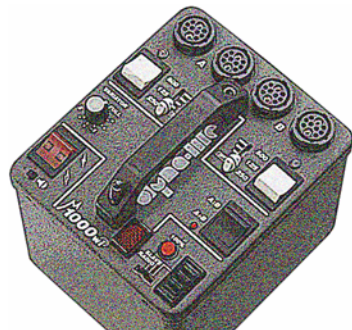

The **Package System** approach offered by Dyna-Lite gives you the *grab it and run* convenience of having your system in one case, ready to go, when ever you need to get out to your assignment in a hurry. You can choose from one to two power packs with two to three flash heads in a system, complete with flash head cables and power and trigger cords.

## Dyna-Lite's Educational Purchase Program

Also included on selected kits are compact light stands and stow-away umbrellas that fit into the same case.

The **Basic Components** of Dyna-Lite equipment are power packs, flash heads, and a full line of accessories. The power available from the power packs range from 500 Ws to 2000 Ws. Flash heads come either with built-in reflectors or bare tube style with interchangeable reflectors. Other components include light stands, umbrellas, light banks, barn doors, snoots, grid spots, cases, and Infra-Red transmitters.

Dyna-Lite also offers a line of mono lights -- the **UNI250R** and the **UNI400JRG** with 250 and 400 Ws respectively. As with our power packs and heads, this system comes with a full compliment of accessories. A special feature of the UNI400JR is that it can be powered by our JackRabbit battery pack, giving you the freedom to continue to operate when power is either not available, or just too far away to access easily.

## The Educational Purchase Program

1. Purchase your Dyna-Lite lighting equipment from one of our participating authorized dealers in the USA or Canada.
2. The **E.P.P.** offers you **30% off List** on your purchase of **A.) one power pack with two heads, B.) two monolights, or C.) any of our Packaged Systems**. The NE-1 Flash Head and accessories are not available with this program.
3. Enjoy the **E.P.P. extended warranty** that protects you for an additional year -- a **Total of 3 years!** (2 years for the Jackrabbit Packs)
4. To qualify, you must be a student or instructor of a photographic curriculum at an accredited college and university.
5. Fill out the **E.P.P. Application** and submit to your dealer -- a copy of your student ID and a certificate of enrollment in an accredited photographic course of studies. For an Instructor, a copy of your employment ID and the course description showing you as instructor of an accredited photographic course of studies.
6. No other promotional discounts are allowed with this offer. Warranties are pre-registered and not transferable for the extent of the warranty period.
7. Discounts do not apply to shipping or local taxes and all charges will be paid direct to dealer. No drop shipments available with this offer. Dyna-Lite reserves the right to approve or decline applications for this program.

To find your nearest Authorized Dyna-Lite dealer or to get more information for selecting the right equipment for your needs, see [www.dynalite.com](http://www.dynalite.com) or call us at 800-722-6638.
